

Yvonne Carlson

Chief Technology Officer, ExploreGod

With over 20 years of experience in Christian broadcasting and digital innovation, Yvonne Carlson serves as the Chief Technology Officer at ExploreGod. She is dedicated to leveraging next-generation tools—such as data systems and AI-assisted platforms—to expand global digital outreach while remaining deeply rooted in the Gospel mission.

Prior to her current role, Yvonne served as Vice President of Product at Unite Life and held key strategic leadership positions at Moody Radio Network and Pathway to Victory at First Baptist Dallas. She holds a bachelor's degree in Psychology from Colorado Christian University and conducted graduate studies in Information Communications Technology at the University of Denver.

A recognized voice at the intersection of faith and technology, Yvonne serves on the Board of Directors for both the National Religious Broadcasters (NRB) and FaithTech, a global movement championing redemptive technology. As a member of IEEE and a leader within Missional AI, she actively shapes discussions on AI ethics, ensuring digital transformation serves as a vessel for genuine human connection and discipleship.
